LIBRARY REPORT

The chief event of the last Library year has been the re-decorating of the interior walls, the varnishing of the wood-work and the hanging of new window shades, which materially improve the looks of the room. The balance of the fund for repairs which we have been accumulating for some time is to pay for a new book-stack and for the re-finishing of the floor and tables. After this work is completed the building will again be in a condition in accordance with the wishes of the donor, Mrs. Caroline Avery Weeks, whose name should be remembered with gratitude by all who enjoy the results of her generosity.

On Christmas day the Library was not opened and one afternoon was lost because of the repairs, but otherwise the regular work has gone on without interruption. During the absence of the librarian for three months Miss Alberta Bennett faithfully carried on the work as though there was no break in the routine.

Our accession list now numbers 8,063, but it cannot increase as rapidly in the future as the price of books is constantly advancing and now is more than double that of the early days of the Library. Over 27 per cent of the books in circulation this year have been juveniles, quite an increase over former years, which proves that children are more and more appreciating the opportunity they have for amusement and instruction.

Mrs. Wilcox has presented several volumes this year and the usual gifts of magazines have been received and circulated.

Respectfully submitted,

LILLIAN A. ODELL.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Greenland :

The work on the whole in your schools is very satisfactory. The State High School Inspector, Mr. Leavitt, reports that he finds the building clean and the work in the Junior High School good. There was a complaint entered to the School Board and Superintendent that the Greenland pupils entering Portsmouth High School were not properly prepared, and were failing in their work. Two members of the Board, Mr. Maynard, and your Superintendent, drove down to Portsmouth to investigate, with the intention of finding what was wrong, in order that the work of the school might be improved. We consulted the Head Master. On consulting his records, he informed us that our pupils were doing good, average work; one of the pupils standing among the very best in the school, and only one in the class with a very low rating. The average of the Greenland pupils was as high as that from any of the other towns sending pupils to Portsmouth High School. This report should put to rest any doubts as to the work done in our schools. We are always glad to have constructive criticism, and shall be glad to know of anything that might aid us in doing better work in the schools. Unfounded rumors, if repeated as true, without investigation, might work an injustice to the school and town. Last June eight pupils were passed to the ninth grade and seven entered High School.

Only one new teacher Miss Mildred Hanneford, was employed.

The following is a list of the teachers, grades, and the number in each room.

Mr. Dana C. Maynard	Grades 7 & 8	21
Miss Gwendolyn Wood	Grades 5 & 6	29
Miss Mildred Hanneford	Grades 3 & 4	31
Miss Marjorie Whytock	Grades 1 & 2	35
Total		116

The following pupils were perfect in attendance for the entire year.

Raymond Bartholic
Eula Kirkwood
Elizabeth Brackett
Katheryn Hopper
Robert Sturtevant
Richard Sturtevant
Kenneth Van Etten

The school nurse, Miss Ina Marden, reports that most of the pupils have been examined, as required by law. A number of cases of impetigo during the fall term made it necessary for the nurse to make a visit every day for some time. The disease is nearly, if not quite eradicated. Such a disease ought not to be found in a town like Greenland, and if all the families were as careful to keep their children in a sanitary conditon as most of the families are, such diseases would entirely cease.

From what has recently come to my attention, I fear that not enough attention to the pupils has been given the noon hour. I strongly urge that provision be made for a hot lunch for those who remain during the noon hour: and that a teacher shall be in the room with the children to supervise the lunch, and see that all of the children conduct themselves in a proper manner.

I wish to thank all of the friends of the school for the kind interest taken in its activities. In particular, thanks is due to the Parent's and Teacher's Association for what it has done for the school. The school will become more and more efficient, if it has the interest and cordial support of the older members of the community.

Respectfully,

L. M. Felch.
